Catalyst Inc

What is Re-imagining Work Experience?

- A unique four-day work experience for 300 lower-sixth students with 30 innovative companies.
- Fundamental training in design thinking using the 5 key stages to solve real business challenges.

Why Get Involved?

- Students will get an insight into real business problems and will develop the transferable skills required to solve these.
- Companies will get to engage with creative and innovative young people to achieve a meaningful work experience for everyone involved
