

REVISION CHECKLIST FOR YEAR 9 GEOGRAPHY

The following are the topics that will be covered in your Year 9 exam including a detailed list of what you will be expected to do for each topic.

TOPIC 2: LEDC SETTLEMENT

Revise ALL of your Topic 2 LEDC Settlement booklet. You should be able to:-

1. state what the letters LEDC and MEDC stand for and provide definitions for each term
2. define the terms subsistence & commercial agriculture and describe the characteristics of each
3. define the term migration and distinguish between international and internal migration
4. name the type of internal migration which is important in LEDCs and state what it means
5. define the term 'push factors' and the term 'pull factors'
6. give examples of push and pull factors causing internal migration in LEDCs
7. name and describe the main zones in a LEDC city
8. define the term shanty town
9. explain why there are shanty towns in LEDC cities
10. describe where shanty towns are located in LEDC cities
11. describe the living conditions in shanty towns
12. define the term informal economy and give examples of jobs within the informal economy in LEDC cities
13. define the term urbanisation
14. name and locate on a world map some examples of LEDC cities

TOPIC 3: ORDNANCE SURVEY

Revise ALL of your Topic 3 Ordnance Survey booklet. You should be able to:-

1. read each of the three types of scale found on OS maps
2. use the scale on a map to measure the straight line distance between two places
3. use the scale on a map to measure the actual distance between two places
4. define what is meant by contour lines and explain how they have been drawn
5. use contour lines to describe the general height and shape of the land
6. recognise and read layer shading and spot heights on an OS map

TOPIC 4: ECONOMIC ACTIVITY

Revise ALL of your Topic 4 Economic Activity booklet. You should be able to:-

1. define and give examples of the following types of economic activity: primary, secondary, tertiary
2. describe how employment in these economic activities has changed through time in Northern Ireland
3. offer reasons for the changes you have described
4. define the terms arable and pastoral and identify the physical factors that determine which a farmer chooses
5. explain the term diversification
6. give examples of diversification
7. describe how products are manufactured and distributed globally
8. explain why this happens and define the term globalisation
9. explain the term multinational company and state some advantages & disadvantages such companies bring to LEDCs

TOPIC 5: CLIMATE CHANGE

Revise PAGES 2 TO 10 of your Topic 5 Climate Change booklet. You should be able to:-

1. define the term climate change
2. define the term natural greenhouse effect and explain how the natural greenhouse effect works
3. explain the enhanced greenhouse effect and how it leads to global warming
4. outline the human activities which have increased greenhouse gases and so caused the enhanced greenhouse effect
5. outline, with examples, some of the main consequences of climate change
