

Subject: Year 8 Technology 2022 revision guidance

For the Summer Assessment Mark, pupils will be assessed on their understanding of the Technology theory taught and on design skills developed throughout the year. The areas are shown below.

Safety in Technology

Mobile phone holder booklet theory

Lapel badge booklet theory: including types of plastics

The Design Process stages

Drawing skills, 3D and 2D

Electronics, including LED theory and circuits.

Structures booklet

Key fob information sheet

The assessment will be a written examination and Coursework relating to the Lapel Badge. Coursework 50%, written examination 50%. Coursework is carried out before the examination period begins.

Revision of the above areas will prepare the student for the written assessment. Pupils should bring pens, pencils, ruler, compass and colouring pencils to the examination.

Any pupil who has not completed all parts of the Technology booklets, perhaps due to an absence, should speak with the class teacher as soon as possible.
