Free copy of Mastering our HPAT Ulster book

which includes over 90 questions and 25 essay titles

This HPAT Preparation course will definitely prepare you for this difficult examination. Free sample question available.

Course delivered by an experienced teacher who focuses on specific techniques that are extremely useful in aptitude tests and essay writing.

If you are put off by writing the two essays in Section 3, we will teach you a formulaic approach to writing your essay to help you achieve a high score

WHY DO OUR COURSE?

1. 'Why should I do this course?' All research shows that familiarity with question types, more practice and good exam technique, including better time management, all improve a candidates performance. Searching the web does not always give you the correct question types.
2. Delivered by an expert teacher, you will be shown techniques of breaking the questions down and practice doing the questions under the time constraints.
3. You will be given full essays prepared from previous years papers.
4. Time management is critical in this exam. We will give you advice and you will practice this aspect on the day.
5. Each candidate will be given a file with over 90 examples of multiple choice questions and 25 essay titles which you can practice before the exam.
6. 'You cannot prepare for this test, they can ask anything' - if you have heard this, it is untrue. Familiarity and lots of practice are key to success.

THE DAY

09.00-09.30 HPAT - WHAT IS IT?

09.30-11.00 CRITICAL REASONING

11.00-13.00 INTERPERSONAL UNDERSTANDING

13.00-13.20 LUNCH

13.20-15.00 SYNTHESIS ESSAY INCLUDING GUIDED PRACTICE

15.00-16.00 REFLECTIVE ESSAY INCLUDING GUIDED PRACTICE

The HPAT is required by the following Allied Health Programmes at the University of Ulster.

1. Physiotherapy
2. Dietetics
3. Podiatry
4. Occupational Therapy

Testimonials

10/10 for UKCAT course. This HPAT course was so good and definitely worth the money. All the tips and tricks to cope with the exam were covered with great methods were given that genuinely work. It was better than any other course that I've been on. It was taught by a medic so they have done the test and understand a lot more. KC July 2018

I can wholly recommend the HPAT course. It got me into podiatry. The course explained all three sections, giving excellent techniques on how to do questions, practise timings and the advice on how to do the two essays was brilliant. Definitely worth the money, there were lots of questions to practise when at home. AM 2018
