• Playing Practise until I can play my guitar test piece through steadily, without stopping and without making a mistake. *It does not have to be played fast, but with smooth and accurate chord transitions. Look at the assessment criteria at the front of your workbook. The amount of time you will practise depends on your own abilities – some people will have to practice longer than others to be sure of the music – so practise for as long as it takes for you. You will be given plenty of notice for your exam. Make sure you practice over several sessions – do not leave it to the last minute or try to do all your practise in one go.* ***You may need to apportion time outside of class to practise as well as fully using the time given in class.*** ****Pupils also have the option of performing on their own alternative instrument or singing if they are currently taking lessons/grades on an instrument/voice. This option is to be uploaded in Google Classroom in a video format where you must be visible and audible. Give the title and grade of piece where applicable as a private comment.****
