

Subject: Year 8 Technology 2021 revision guidance

For the Summer Assessment Mark, pupils will be assessed on their understanding of the Technology theory taught and on design skills developed throughout the year. The areas are shown below.

Safety in Technology
Mobile phone holder booklet theory
Lapel badge booklet theory, including types of plastics
The Design Process stages
Drawing skills
Electronics

Structures theory and bridge design will not be assessed.

The assessment will be a written design task, in class, 1 hour long. Revision of the above areas will prepare the student for the assessment. Pupils should bring pens, pencils, ruler, compass and colouring pencils to class.

Any pupil who has not completed all parts of the Technology booklets, perhaps due to an absence, should speak with the class teacher as soon as possible.
